The Greek Golden Visa: Real Estate Investment with a Residency Advantage

Greece remains one of Europe's most active markets for international property investors. Through the Golden Visa programme, non-EU buyers can obtain a Greek residence permit for themselves and their eligible family members by making a qualifying real estate investment — thresholds depend on location and property type.

Demand is concentrated in Athens, the Athenian Riviera and selected islands, where buyers look for rental income potential, long-term capital growth and a lifestyle base in the Mediterranean. Permit holders may travel within the Schengen Area under its standard rules.

At Astons, we guide investors through the full process: shortlisting properties that match your goals, legal due diligence, and Golden Visa applications. Get in touch to discuss your investment criteria.

Diversify with European Real Estate

Concept visual, indicative only.

Looking to diversify with European real estate? The Greek Golden Visa pairs a property investment with a residence permit for you and your eligible family members.

From luxury villas on the Riviera to commercial space in Athens, the right opportunity depends on your goals and budget. Our team supports international buyers from property selection to permit application.

Speak with Astons to explore options tailored to your profile.
